PINANCIAL AND COMMERCIAL.

MONEY MARKET.

SUNDAY, October 31-6 P. M.

At the close of the market yesterday, quotations were very well maintained. The transactions for several days past have not been unusually large, and there is no speculative feeling in the street. One or two of the leading fancies en in demand, and prices have improved moderately; but stocks generally have been heavy, and pur. ers by no means plenty. With abundant facilities culating, everywhere appared, with low prices ruling for many securities - with large receipts of gold dust and reduced exports-with a steady improvement going on in the actual value of active stocks-it is extraordinary that there is not more excitement in the market, and more outsiders in the street actively operating. The advance reported in Long Island is in accordance with our predictions. It is nothing more or less than an extensive cornering combination, perfected by a clique of Philadelphia speculators. If they have the means to buy and carry the entire capital stock, they may put prices up to almost any point; but as it is rather poor property to hold, being wholly unproductive the investment is likely to turn out rather unprofitably. For some cime past, the Philadelphians have been buying up this stock; and so long as they continue to buy, so come when they may wish, or be compelled, to sell, and then speculators in this market will have an opportunity to purchase whatever quantity they may desire, at comparatively low prices. Canton Company has been galranized. An advance of four per cent has been realized within the past four days. Cumberland continues to fluctuate to the usual extent. It is one of the most active stocks on the list. Eric Railroad remains heavy; but when we consider the amount of stock on the market, and the steady increase in the supply, it is well sustained. Its earnings this month have been large, exceeding, we believe, the highest estimate. It is stated that at least two millions of new stock will be issued during the present year. Florence and Keyport has fallen off within the past hree weeks fifty per cent, and is likely to go lower. It has had its day, for a time at least, Norwich and Stonington Railroad are much neglected, and prices are setbling down. Nicaragua has been very steady for some time past, and the sales quite large. The stock market, on the whole, is in a very curious state, and there are no indications of any important movement any way. The shipments of specie from this port during the past

week, and during the year, have been as annexed :-54 700

 The exportation last week was smaller than in any
 previous week this year. Foreign exchange declined

yesterday, previous to the departure of the steamer, and large remittances were made of sterling bills. This accounts for the reduced shipments of specie. In November and December of last year, the export of specie amounted to \$10,762,231. This year it will probably be less than half that sum, making the decrease in the twelve months upwards of fifteen millions of dollars. The regular annual election for directors of the New

Jersey Zinc Company for the ensuing year will be held at the company's office, Newark, on Tuesday, the 2d of November, from 2 to 3 o'clock P. M. A board of twelve directors will be elected instead of seven, comprising some of the wealthiest and best men in this city and New The annexed statement exhibits the receipts and dis-

and the receipts from the Cumberland region will largely exceed any previous year.

Contracts have been closed for the construction of the

Potsdam and Watertown Railroad. The work is to be

completed and ready for the cars in fifteen months from the 1st of April, 1853, and that portion of it connecting

Potsdam with the Ogdensburg road is to be nearly ready

livered to the banks up to October 9, 1852:-

for use by the 1st of July next.

The sales reach 20,000 bushels white Western at \$1.0916 as \$1.10; 15.000 do. Canadian, in bond, at \$1.02 a 1.07; and 9,700 damaged and very common Canadian, at according to quality, from 75c. a 55c per bushels. Rye and oats were unsitered. 3 \$00 bushels fair two rowed barley realized 75c, and 15,500 bushels Western mixed corn, 75c. a 77c. per bushel.

Corrent was moderately active, and firm. The transactions embraced 50 bags Laguayra, at 9 ½c; 50 Maracabo, at 9c; 200 Rio, at 8 ½ a 8 %c, and 50 St. Domingo, at 8 ½ c per 1b.

Corrent.—There has been a good demand to day, the sales reaching 3,060 bales, without change in prices.

FRUIT.—The day's business included 200 boxes layer raisins, at \$2.85; 1,100 bunch do. at \$2.60; 500 half do. at \$1.35; 800 quarter do. at 70c; 250 half kegs grapes, at \$4; and 5cases citron, at 23c.

FRUITIS.—To Liverpool we have to notice engagements of about 20,000 bushels of wheat, part in bags, at 6½d, and the remainder in bulk at 6½ a 7d; 1,000 to 2,000 buls, flour were engaged at 2s, and about 500 bales cotton, part at ½d. To Glasgow, flour was at 2s. 6d, and grain at 7 ½ a 8 ½d. These was no alteration in rates for London. Cotton to Have was at ½c. To California rates were steady, and ranged from 35 a 90c. per foot.

Hav.—Some 1,100 bales have been disposed of, at \$1 to \$3,756,241, and the imports from other parts of the world amounted to \$28,165. It therefore appears that in s year, there has been an increase from Califormis of \$1,385 503, and an increase in receipts from other gour es of \$29,243. In October, 1851, the value of merchandise imported

was \$8,554,509. The official returns for the full month of

October, 1852, will exhibit a result slightly differing from the above. The importations in October this year, will

be about two millions greater in value than for the same

month in 1851. The principal items of import during the past week are as fellows, viz:—Coffee, \$90,749; cigars,

\$64 964; raisins, \$76,431; leather, undressed, \$67.491;

iron, \$40,051; railroad iron, \$102,051; tin, \$54,987. There is nothing important in the detailed returns of imports

for last week. The weekly imports do not fall off so
